General Comments:

On March 15, 2016, the operator of Valley Mini Mart was asked to close the business due to no water availability. The market is part of the Hardwick Community and receives water from the community well. As a result of the well recently going dry, the market was not able to operate.

On March 19, 2016, water was restored to the community and water for hand washing and restroom use is now available to the market. The operator was contacted by phone on Monday, 3/21/16 to inform them that they are now able to re-open for business. They were also reminded that the water is for sanitation purposes only, and it is not for drinking. The market does not have a soda fountain or coffee machine. They only sell pre-packaged items and bottled drinks.

A copy of this report will be provided to the operator for their records.
