<p style="text-align: center;">Kings County Water Commission Membership Application</p>
--

Efforts are underway to reactivate the Kings County Water Commission (KCWC). The intent of this action is to provide public awareness of state, valley, and county water issues; to provide a mechanism that will explore and present viable solutions that address the long term sustainability of water for cities, unincorporated communities, agricultural industries, and protection of natural resources within Kings County. Therefore, the Kings County Board of Supervisors has authorized the formation of the Kings County Water Commission to be made up of approximately 7 members.

Nominations for membership on the Water Commission are now being sought. Nominees should be aware that the committee will be conducting monthly meetings in the evenings and that the duration of the appointment is on a 2 year basis.
