

SC Disability Compensation

The term "Disability Compensation" denotes the Veterans Administration monetary benefits paid on account of a veteran's disability or death. When we say compensation, we are talking about compensation for "Service-Connected" disabilities.

Service Connection is the relationship of a particular disabling condition to the veteran's Military Service. This is accomplished by showing that a condition began during the military service, or that a pre-existing condition was made permanently worse than it would have otherwise been, or by the application of certain statutory presumptions.

Formal application for Service-Connected Disability Compensation is made by submitting a completed VA Form 21-526 "Veterans Application for Compensation or Pension", together with any and all appropriate medical and other supporting medical evidence.

The Kings County Veterans Service Office has trained and accredited Veterans Services Representatives accredited by the Veterans Administration to process any and all Pension claims on behalf of veterans.

Each veteran is treated in a respectful and professional manner.
